INTRODUCTION

Housing Development Finance Corporation Limited (HDFC Ltd.) pioneered housing finance in India and has assisted more than 6.2 million Indians to own a home of their own.

Their extensive distribution network of 439 inter-connected offices (including 135 offices of HDFC Sales) caters to over 2,400 towns & cities across the country in our endeavour to serve the housing demand in India. They have 3 representative offices in Dubai, London and Singapore offering Home Loan products to Non-Resident Indians and Persons of Indian Origin.

HDFC has successfully emerged as the trusted ecosystem leader and has been voted the best managed financial services company with a proven track record of excellent corporate governance and value creation for its stakeholders.

CASE STUDY

CUSTOMER NAME:
HDFC HOME LOANS
INDUSTRY: FINANCE
SECTOR
HEADQUARTERS:
MUMBAI

CLIENT REQUIREMENT:

- 600+ centrally managed Agent Terminals
- Dynamic and agile Contact Center Solution
- Unify all business-customer interactions
- Highly automated and agile system
- Deal with large incoming traffic volumes by strategically reducing Call waiting time
- Centralized reporting and monitoring

BUSINESS CHALLENGES

The client faced obstacles with their semi-automated collection bucket processes and operations, involving more than 200 employees in 24 locations across India while using traditional telephony solutions.

RESULTS DELIVERED

- Single PRI per location was provided
- More than 24 user locations
- Quick & responsive Unified Contact

One of the major issues revealed during our initial brand audit was that the client's unorganized Customer Management System with individual sites. This led to data duplicacy around various sites with repeated user efforts, ultimately affecting the entire Customer Experience.

- Center Solution and Dialing solution
- Centralized User Log-in, Administration, management, Supervision, reporting and monitoring.
 - Improved Customer Engagement & Customer Management
 - Increased Customer interest & satisfaction
 - Greater user and Business productivity due to increased no. of interactions through a streamlined process

SOLUTION PROVIDED

The client chose Agami-Tech's flagship product Intalk.io , a Unified Contact Center Solution, based on its wide range of features, integration capabilities and its ease of automation. The Intalk.io platform was seamlessly integrated with HDFC's Lead management system (LMS) and Oracle databases within the scope time.

A Centralized system was setup for administration, supervision, reporting and monitoring of more than 24 sites across India locations. Individual locations were facilitated with a media gateway to terminate PRI and perform calling operations.

Key Features & Functionalities delivered:
